

BROADVIEW
LUXURY SHADING SOLUTIONS

About Broadview

Established in 1969, Broadview is today a leading supplier of premium bespoke interior shading solutions to both domestic and commercial markets, as well as outdoor shading systems. Over the years, we have built an enviable reputation as being one of the leading providers in the country, having worked alongside renowned designers, architects and developers on a number of prestigious projects in the UK. Our team work with homeowners that take pride in their home to create the perfect indoor shading solution to meet their requirements.

From our head office in Poole, Dorset, we offer a complete service from initial advice on your project followed by the design, supply and installation.

Our range of window blinds, conservatory blinds, luxury curtains and shutters offer a luxurious yet practical solution to your indoor shading needs. For that extra touch of modernity and fuss-free living, we can integrate a number of our shading solutions into most home automation control systems providing you with the flexibility to control your shades using a touch pad, remote control or keypad.

Blinds

Broadview's interior blinds are available in a variety of styles, fabrics and finishes to add a touch of style and class to your home or office. Whether you're looking for roller or pleated, venetian or blackout, roman or vertical, our blinds are made to measure and can be fitted by one of our experienced team or you can fit them yourself.

Our showroom in Poole offers customers the opportunity to see the wide variety of blinds and speak to our friendly showroom staff who can provide advice and guidance on the most suitable style and fabric for your needs. To ensure your total satisfaction, we offer a free, no obligation measuring and consultation service at your home or office and all of our blinds come with a two year guarantee.

LUXURY SHADING SOLUTIONS

Conservatory Blinds

Conservatories are renowned for being hot in the summer and cold in the winter so having good quality blinds to help regulate the temperature can be the ideal solution. They can also offer energy savings as they provide insulation that helps reduce both heat build-up and heat loss.

The first thing to decide on is the style of blinds you would like in your Conservatory or Orangery. Choose from Pleated or French Pinoleum roof blinds with reflective solar backing. Side windows can either be Pinoleum, Pleated, Roller or Venetian styles. We can also offer manual or remote control electric operation for both roof and side windows.

Conservatory blinds have a practical purpose, protecting your furniture, plants or pets from the strong rays of the sun, whilst retaining more warmth in your conservatory during winter and reflecting UV glare. You'll have a room you'll love to use all year round!

Shutters

We are the South's leading shutter specialists and can design, manufacture and install high quality, stylish shutters for your home.

Aspirational yet practical, window shutters can be made to fit almost any window or special shape. They offer complete flexibility with how you control the light into the room and are relatively low maintenance. Not only can they help with sound insulation, they have the added perception of security and privacy, and can help to insulate your home from the cold.

We offer a wide range of quality shutters in different finishes and materials. Speak to our Interior Shading team for advice and guidance on the most appropriate solution for your home.

Luxury Curtains

We not only specialise in blinds and shutters but luxury curtains too. All are beautifully made-to-measure and can co-ordinate with soft furnishings from our handpicked Drapes collection.

Choose from over five hundred fabrics with ten different style headings to create an individual look for your home. All our curtains are hand finished and fully lined with weighted corners and the option of thick interlining. We can make Roman blinds to match your curtains or you can provide us your own fabric.

We also have a contemporary range of poles cut to size for each order available in hardwood or metal, alongside a range of finial pole ends. A complimentary range of accessories including cushions, throws and headboards is also available.

Whether you require classic pleats or a simple contemporary look, the best way to set the mood in a room starts with your windows and the way you choose to dress them.

We offer a no obligation consultation with an experienced Design Consultant to offer initial advice and help you achieve your desired result. Contact us now for more details or visit our showroom
